PROFESSIONAL SUMMARY

Proactive and achievement-focused professional with internships at T-Systems and Area F5, where I honed my skills in Java, JavaScript, and Python. Excelled in developing a seat reservation application using OpenCV and a mobile app with OCR technology. Demonstrated strong collaboration and problem-solving abilities, contributing to significant project advancements. Fluent in German and English, with a keen eye for innovative solutions.

EIG Business School	**Sep. 2019- Jun. 2021**
Advanced Technician in Multiplatform Application Development	*Granada, Spain*

WORK EXPERIENCE

T-Systems	**Mar. 2022 – Jun. 2022**
Intern	*Granada, Spain*

With a strong focus on innovation, T-Systems offers comprehensive IT services and has established itself as a top revenue-generating company in the tech industry.

- Developed an internal application for seat reservation in the work environment.
- Used computed vision with the OpenCV library.
- Collaborated with the engineering team to determine project specifications.
- Trained in the use of frontend and backend technologies.

Area F5	**Mar. 2021 – Jun. 2021**
Intern	*Granada, Spain*

Area F5 is a technology company that focuses on delivering innovative solutions and services to enhance operational efficiency.

- Developed a mobile application for the company with text recognition (OCR).
- Used websockets and designed interfaces with Figma and React Native.
- Provided software and hardware troubleshooting to maintain performance levels.
